- Preparing soil, potting, planting and assisting the Senior Researcher with all aspects of growth room assays in the winter months
- Data collection and record keeping
- Maintaining tidy field spaces and work areas

Benefits:

- Competitive salary
- Health and Dental Benefits

Job Description:

Ag-Quest is looking for one full-time, permanent Agricultural Sciences Technician to join the team at the Minto Research Station. The Ag-Quest Agricultural Research Station is located outside the town of Minto (40 minutes south of Brandon). The Technician must possess a class 5 Driver's licence and have reliable, consistent, daily transportation to the Research Station near Minto. The Technician will be assisting Researcher and Support staff so should have strong teamwork and communication skills.

Overall duties include physical labour in the field and lab, driving tractors and trucks, standing and sitting work, and lifting samples and objects that are 10-50 lbs. The position includes indoor (seed lab and resistance lab) and outdoor work in various environmental conditions, a minimum of 8 hours/day, and overtime may be available. Competitive wage rates. Personal protective equipment and health and safety training will be provided.

Applicants:

Please send your resume, to careers@agquest.com. Only those candidates under consideration will be contacted. This position will remain open until September 21st. If you require additional information, please email careers@agquest.com. For more information on Ag-Quest visit www.agquest.com.
